

How To Get Started

- 1 Pick a song from the drop-down menu (or start from the beginning of the show).
- 2 Double click on a measure in the timeline
- 3 and then click the play button (or just click the play button).
- 4 Click on the stop button to pause the music.
- 5 Click on the return-to-start button to move to the beginning of the song.
- 6 Click on the rewind button to move back in the music.
- 7 Click on the fast-forward button to move ahead in the music.
- 8 Click on the jump-to-next-song button to move to the next song.
- 9 Click on the last button to exit a vamp.

Would you like to isolate your own part?

- 1 Click on the speaker to turn off the other parts.

Or...

- 2 Click on the drop-down menu to change the sound to a different instrument.

Or...

- 3 Move the slider right or left to turn up or down the volume.

- 4 Do you need to reset everything? Just click the reset button.

Would you like to change the tempo?

- 1 Type in a new tempo or simply move the slider back and forth.

Would you like to change the key?

- 2 Click on the up or down arrow to transpose the song up or down a half step.

Would you like to return to a specific place in a song?

- 3 Click on the plus button to add a marker
- 4 Click on the minus button to delete a marker.
- 5 And don't forget to type in a brief description to remind yourself of what the marker means.

Would you like to save your work?

- 6 Just click on the save-arrangement button.
